

FROM GUESTROOM TO PORTFOLIO CONNECTED CONTROLLED OPTIMIZED

Honeywell Forge Hospitality Essential

Honeywell

REIMAGINE HOTEL OPERATIONS WITH CONNECTED INTELLIGENCE

The Honeywell Forge Hospitality Essential package connects your systems, data, and teams—so you can make smarter decisions, faster.

From guestroom thermostats to enterprise dashboards, this software unifies your building systems into one intelligent platform. Gain real-time insights, automate energy savings, and manage your portfolio from anywhere.

A UNIFIED ECOSYSTEM FOR SMARTER HOTEL MANAGEMENT

• INTEGRATED SYSTEMS

Connect HVAC, lighting, access control, and safety systems across guest rooms and common areas—no silos, no guesswork.

• REMOTE CONTROL

Adjust room settings, respond to alarms, and optimize energy use—without stepping onsite via mobile friendly web access.

• PORTFOLIO-WIDE VISIBILITY

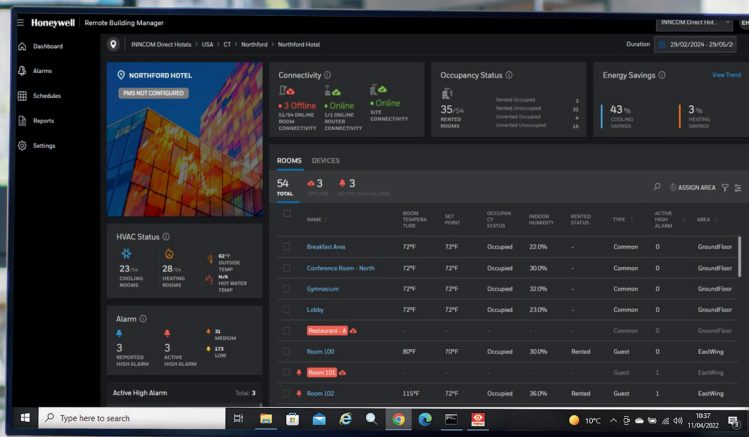

Monitor performance across multiple properties from a single dashboard to ensure consistent guest experiences.

• PRODUCTIVITY TOOLS

Empower staff with intuitive, easy to learn dashboards and systems that simplify tasks—from task prioritization for hotel operations and maintenance to remote monitoring.

• DATA-DRIVEN DECISIONS

Turn guest and operational data into actionable insights that reduce costs and elevate satisfaction.

ESSENTIAL PACKAGE APPS

The Honeywell Forge Hospitality Essential package brings together six powerful applications designed to optimize and elevate building operations, helping hotels improve efficiency, enhance guest experiences, and drive smarter decision-making.

INNCOM SUPERVISOR

Your eyes and hands across every room.

Monitor and control guestroom systems remotely. Reduce energy waste, respond to issues instantly, and ensure comfort – all done from the cloud.

KPI DASHBOARD

Your portfolio at a glance.

See alarms, uptime, energy use, and asset health in one place. Prioritize action and benchmark performance across sites.

OPPORTUNITY ASSESSMENT

Find the hidden savings in your data.

Identify inefficiencies and quantify potential savings using real-time data and industry benchmarks.

ASSET LIFECYCLE ASSESSMENT

Plan ahead. Avoid surprises.

Track the health and lifecycle of your infrastructure. Replace aging assets before they fail, to avoid guest disruption.

REPORTS

Keep everyone informed—automatically.

Stay audit-ready and maintain compliance with ease. Produce and share comprehensive reports on energy, alarms, and performance.

Easily scale your system by integrating additional applications within Honeywell Forge Hospitality, allowing you to expand capabilities, streamline workflows, and adapt to evolving operational needs without disrupting existing processes.

INSIGHT BUILDER

Turn data into decisions.

Visualize performance, energy, and asset data with intuitive widgets and templates that make insights actionable across your portfolio.

INTEGRATIONS

Seamless connectivity. Smarter operations.

Integrate with Property Management Systems and Central Electronic Locking Systems—plus leverage an open API for seamless compatibility with other platforms—to automate workflows, enhance guest experiences, and unify building data for better control and visibility.

CONNECTED SYSTEMS PROVEN RESULTS

Hotels that integrate building systems unlock real-time optimization, cutting energy waste and lowering operating costs across the portfolio.

READY TO TRANSFORM YOUR HOTEL OPERATIONS?

Contact Honeywell today to learn how the Honeywell Forge Hospitality Essential package can help you deliver smarter, more sustainable guest experiences.
